An Experiential Weekend Workshop with Dr. Sharon Forrest

Some of you will just know that you have to be here!

Surrey / White Rock B.C. August 4th – 7th, 2017

“Whether by the individual or the collective consciousness of generations of one’s DNA set in motion eons ago – plays out inexorably on the stage of life until we get it right.”

What you are today is the sum total of your ‘past’, which not only includes your past from the present lifetime but also from all your previous lifetimes as well. The memories and impressions, of each and every moment your past, plus family history are stored in your subconscious mind which shapes your personality.

Incidents and situations that the individual could not come out from with complete understanding continue to remain as energy blocks in the psyche. Such trauma that is buried deep inside our subconscious causes many unexplainable problems faced in this lifetime. These unresolved issues from past-lives create physical, emotional, mental, and spiritual ailments.

“He who knows others is wise... He who knows himself is enlightened.” Tao Te Ching

Testimony from Cathy, a lady who healed multiple sclerosis in one session.

"Over the years, many friends have suggested that I be regressed in an effort to identify the source of and to resolve the mortal terror that I lived with daily and which controlled my life until a short time ago. I never would have believed that two hours with one person could have such a dramatic and profound impact on my life."
